In memory of our beloved colleague and friend who was a dedicated educator, guidance counselor, and administrator. Paula J. Simmons' unremitting devotion to "her kids", the underachievers, has been an inspiration. Her voice will continue to ring loud and clear in these halls. Her loving touch will be felt on our shoulders, and her genuine smile will radiate forever.

Serving our school and its students
from 1975-1994

Starting from Scratch

It is hard to believe that in 1972 when Mr. Oliveira first conceived his plans of building a regional school in the small town of Rochester that it would grow and prosper to the success it has over 20 years later.

In 1975, Mr. Oliveira, the school's original superintendent, opened the doors to four eager towns: Acushnet, Carver, Rochester and Mattapoisett, only excepting a freshman, a sophomore and a small junior class. Over the years, the participation from the surrounding towns has increased, as two new towns, Lakeville and Freetown, have entered our vocational system.

In 1981, the number of trades that were offered at our school decreased from 14 to 12, losing Consumer Homemaking, Child Care, and Business Technology, and adding Health Services. That still left us with a great variety of shops to choose from.

In 1991 we began working in our chosen trade, starting from scratch, having little, if any, knowledge of it. We entered this school full of anticipation and without many friends and as the years went by, we became closer to each other, gaining new friends and keeping the old. There are memorable times that we have shared and we will always cherish them. It always seems to be, that every time we lost a friend, there was a new one waiting for our companionship. We'll always have our memories, whether they were during happy times or sad.

When we finally break out our yearbooks many years from now and read the following commencement speech by Kevin Marcondes, we hope it will bring back memories of new beginnings and carefree days gone by.

“Four years ago, my fellow students and I began a new chapter in our lives, a chapter called High School. We began this chapter much as one would begin any other chapter of a good book: with excitement, anxiety, and anticipation.

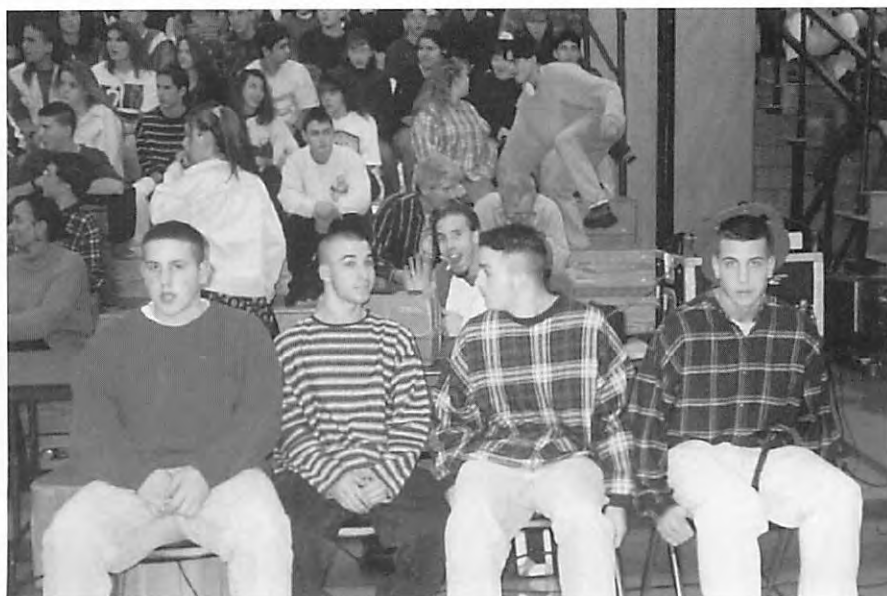

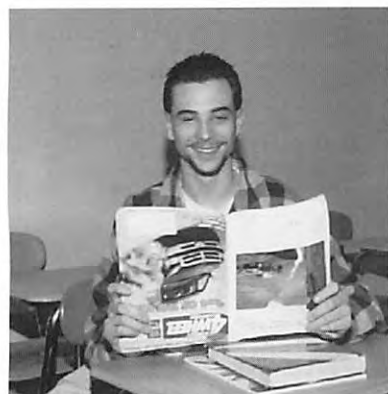

As time progressed and we read deeper and deeper into our own personal chapters, the excitement, anxiety, and anticipation left us. We made friends and enemies. We got to know each other, our teachers, and our school better. We watch our seniors graduate and began looking forward to the day when we, too, would graduate. We became upperclassman and taught the younger students the tricks of the trade. We began counting down the days until our graduation, and finally, that day was here.

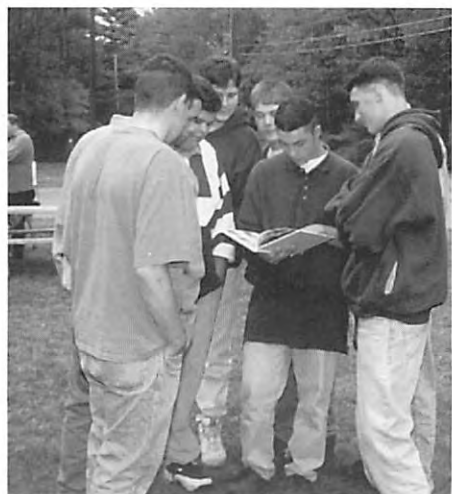

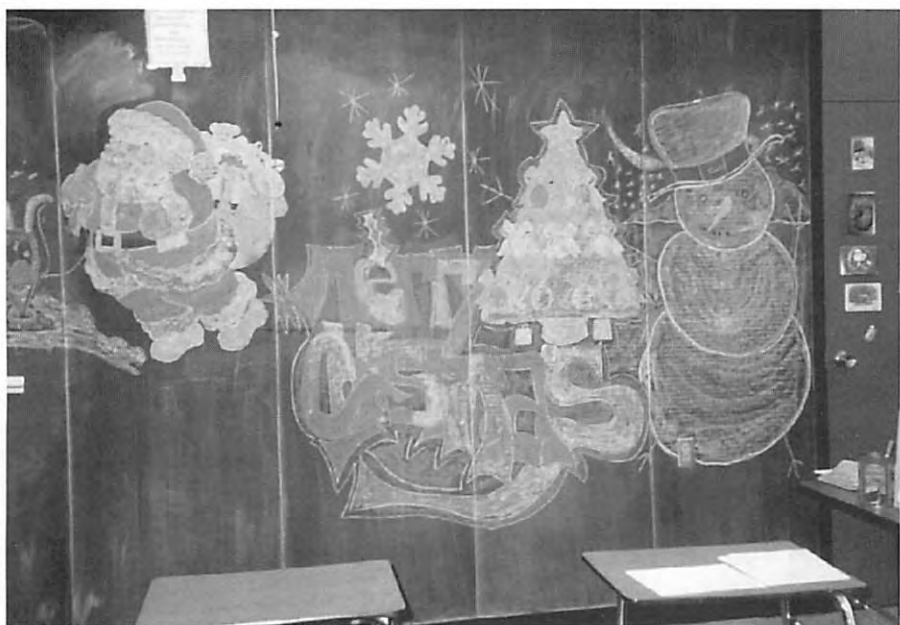

Today marks the end of our high school chapter. Today, we can look back on that chapter with a sense of accomplishment. Some will be satisfied with it, others say it could of been written better.

No matter how we feel about the past chapter, there is something to look forward to. For today not only marks the end of our high school chapter, but it marks the beginning of a new chapter in our lives. And so, faced with new challenges, we put the past behind us and began this chapter with excitement, anxiety and anticipation.

So to all of you I say: Remember the past fondly, but look forward to the future with enthusiasm. For the future has not yet been written.

Congratulations and good luck.”

Mr. Ed Gerety

On Friday, September 30, 1994, the National Honor Society sponsored an assembly for the entire student body. Mr. Ed Gerety conducted a one hour motivational presentation entitled "Reach for the Stars — Making the Most of Your School Years". He is a well-known motivational speaker. As a resident of New Hampshire, he travels around the nation to speak to schools. He set up an incredible program for our school and spoke straight from his heart. It seemed that the student body enjoyed the presentation and he will probably return to speak in the future.

A total of 25 Old Colony students attended the annual Massachusetts VICA Skills USA Championship in April. The program was conducted at the Best Western Royal Plaza Hotel and Conference Center in Marlboro, Massachusetts with 19 of our students competing for a medal.

VICA, Vocational Industrial Clubs of America, provides opportunities for vocational students throughout the United States to compare their skills in all trade areas.

Old Colony students who came home with an award were: Ed Brown, a gold medal in Carpentry; Ryan Motta, a bronze medal in Precision Machine; and Kara Deterra, winner of a State Officer's Position.

Ed Brown competed in the National Leadership Conference and Skills USA Championships held in Kansas City, Missouri in June.

Honor Society

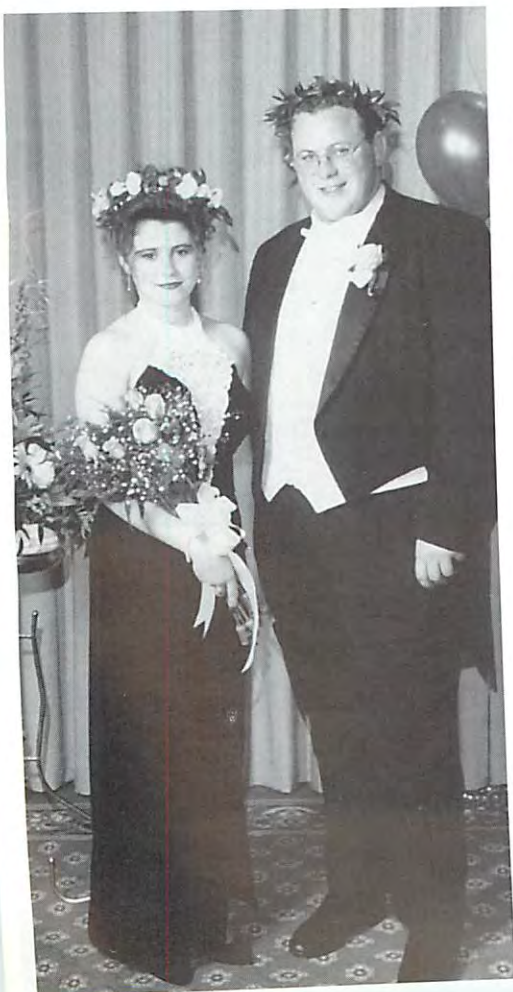

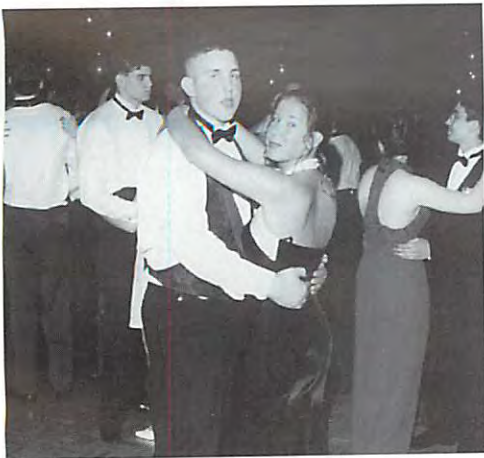

The Old Colony Chapter of the National Honor Society conducted its annual Induction Ceremony on May 4th. The students were selected for membership based upon their scholarship, leadership, service and character. Students are selected by the Honor Society Faculty Council.

The following students were inducted during a formal dinner ceremony, Class of 1996: Megan R. Barrett, Joshua Dansereau, Jessica B. Francis, Diane Lackie, Brian V. Rumery, and Class of 1997: Karen Melo, Julie Lebert, David DosSantos, Joshua Gerard, Peter Rawcliffe, and Rachael Parker.
