

Welcome & Welcome Back!!  
Here we go..... Hope you enjoyed your summer!!

When you are looking to purchase lunch in the cafeteria, we have a [daily order form](#) located on the cafeteria page on our web site. Please use this page moving forward to purchase any lunches from the cafeteria. I know some of you save the form for easy ordering. It would be best to save the page instead, in case I change or add to the form.

We will need your order in, no later than 9:30. On the order form, you will have the opportunity to tell us what time you will be picking up your meal. We will prepare these meals just before the lunch shift you specify. All orders can be picked up in the Stove Top line at the door closest to the register. Please be careful this is the exit door for the students. You do not need to wait in line, just grab your lunch. There will be a shelf with all pre-ordered meals labeled with your name. All items selected on the order form including utensils will be with your meal. Your transactions will be processed through the register when we prepare the meal so please be sure to have money on your account in the morning when ordering. We will not be able to process any meals or purchases that are not pre-paid. Any deposits brought to the main office by 10AM will be processed before lunch service.

Yes, you can still come in to order something without using this order form but I will ask you to please wait until the students have gone through the line or in between lunches when we are not serving students. Please do not cut the students in line.

On the [Cafeteria web page](#) you will find links to the [Lunch](#) & [Breakfast](#) menus, you will also be able to view all our [A-la-carte](#) & [Meal Prices](#) along with any cafeteria updates, forms, parent letter & the new student slide show that was running during their orientation.

Here is the link to our [Special Diet order forms](#), these order forms are weekly order forms geared for students to plan their meals on the Friday before each week, but if you have any questions and decide, it is something that works for you just let me know☺

At the registers, during service, we will remain a cashless environment. If you will be paying for your meal in cash or by check, it must be put into an envelope. We will not have change; if you do not have exact change needed any extra will be deposited on your account for a future purchase. Please put your deposit in an envelope with your name & ID# on it and put it in the drop box. There is a drop box in the main office and at the registers in the cafeteria. Please bring deposit to the main office before 10am in order to have deposit made that day in register. Please make sure to place your deposit in an envelope with your FULL NAME & ID# on it. You can also deposit money on your account by depositing money through [MySchoolBuck](#). When creating an account with My School Bucks, you will need create an account with your name then set yourself up as a student to deposit money onto your account.

We now have vending machines that are linked to your school meal account. When using the vending machines you will need your ID # and full date of birth to use your account funds. Cash is always accepted without that information. If you have any questions or problems with using your accounts on the machines please let me know. Our vending machines will be on timers. We have one vending machine in the hallway closest to the gym. This one will only be available before and after school. The two in the cafeteria will be available during lunches and before & after school.

Follow us on social media. I will post the menu, changes and updates daily.
