FOR IMMEDIATE RELEASE

Old Colony RVTHS Receives Invitation into MSBA Feasibility Study Phase

Rochester, MA - On August 30, 2023 at 10:00 a.m. the Massachusetts School Building Authority (MSBA) Board voted to approve Old Colony's advancement in the MSBA Grant Program, marking the start of our work on a much anticipated Feasibility Study. This invitation into the MSBA Feasibility Study marks a momentous milestone as we imagine Old Colony's vision for the future and partnership with the MSBA. This will be Old Colony's first large-scale project with the MSBA and will open doors for our students, our staff, and our member communities, as we aspire to meet increasing enrollment demands and maintain our reputation as an innovative, collaborative, and progressive leader of vocational technical education for the towns of Acushnet, Carver, Lakeville, Mattapoisett and Rochester.

During the early stages of this process, there were many supporters from the MSBA offices, who along with state and local legislators, member town representatives, our Building Committee, Old Colony School Committee, and staff came together to prepare for what we know will be a challenging and rewarding journey. We would like to thank these collaborators and stakeholders for their ongoing support and communication as we venture forward in a process that will be transformational for the Old Colony Regional Vocational Technical School District.

We extend our gratitude to the Board for their endorsement of our work moving forward. We look forward to continued partnership as we navigate the process that lies ahead. We are excited to embark upon our Feasibility Study as we imagine the possibilities and work to bring our vision to life. This is a landmark moment in our Old Colony history that will ensure our ability to continuously serve our member communities at the highest of levels for years to come. We thank you for your continued partnership and support.
